RE: *Professional Services Proposal - 2019*
For Site known as SRP PI# 00032, Clayton Water Yard, 39 East Chestnut Street, Clayton, New Jersey

Dear Ms. Miller:

Environmental Resolutions Inc. (ERI) is pleased to provide this scope and fee proposal to the Borough of Clayton (Borough) for the continuation of environmental activities associated with the Clayton Water Yard. This proposal provides continuation of ground water monitoring and sampling. Additional activities will be conducted under separate scope and fee proposal.

ERI will conduct the following scope of services:

1. Ground Water Monitoring and Sampling (July and October 2019) MW 5R, MW 8, MW9 and MW 12

ERI will retain the services of a New Jersey Certified Laboratory to conduct ground water monitoring and sampling for ground water monitoring wells MW 5R (source area well), MW 8 and MW 9 (wells exhibiting contaminants) and MW 12, located at 74 East Chestnut Street. Ground water samples will be analyzed for Volatile Organic Compounds and Semi-volatile Organic Compounds with field blanks and trip blanks. The lab results will be available approximately two (2) weeks after the samples are collected and submitted to the laboratory.

In addition to collecting samples for lab analysis, the certified lab will monitor each well for field parameters including pH, dissolved oxygen, temperature and specific conductivity as well as ground water elevations from each well. For purposes of this proposal, only two (2) rounds of ground water sampling have been proposed.

Estimated Fee Not To Exceed - \$4,900.00

Please note the next ground water monitoring and sampling event is scheduled for July 11, 2019.

No other activities will be included in this proposal. All terms and conditions of ERI's contractual agreement with the Borough of Clayton are in effect. All fees will be based on the current rate schedule agreed with the Borough of Clayton. Should you have any questions, please feel free to contact us.

Sincerely,
