Dear Mayor and Council Members:

Our office has prepared the escrow fee amount based on the approved plans prepared for the sanitary sewer improvements to the residential site prepared by Consulting Engineer Service of Sicklerville, New Jersey.

In accordance with Municipal Land Use Law, Section 40:55D-53, we have determined the escrow fee amount that must be posted for the sanitary sewer improvements prior to the start of construction. As provided for in the enclosed table, we have calculated the required fee amount for the observation of the site work and improvements as follows:

Sanitary Sewer Improvements	
Escrow Fee Amount	\$ 1,904.13

By copy of this letter, we are informing the Applicant of the escrow fee amount. The required escrow fees should be posted with Donna Nestore, Chief Financial Officer at the Borough Municipal Building. By copy of this letter to Christine Newcomb, Borough Clerk, we are requesting that this matter be placed on the agenda for approval at the next available Mayor & Council meeting.

If the escrow becomes depleted due to unforeseen field conditions and/or plan revisions, a letter will be issued to the Applicant requiring additional escrow monies to be put into the inspection escrow account to cover those activities. **With the final acceptance of the constructed site improvements by the Borough of Clayton, the balance of the inspection escrow account will be refunded to the Applicant.**
