Stream Cleaning NJDEP General Permits  
S&A Proposal No. 2016-24*

Dear Mayor and Council:

Sickels & Associates, Inc. would like to thank you for the opportunity to offer this proposal for surveying and engineering services in connection with the above referenced project.

It is our understanding that the Public Works Department will be using a contractor to perform stream cleaning activities at four locations throughout the Borough. The proposed stream cleaning will primarily involve the removal of fallen vegetation. Some portions of the vegetation will be removed by the use of hand tools and some portions will be removed using construction equipment. The proposed stream cleaning requires permits from the New Jersey Department of Environmental Protection (NJDEP) Division of Land Use. A Freshwater Wetlands General Permit 26 and a Flood Hazard Area General Permit will be required.

Therefore, we have prepared the following proposal to complete the NJDEP permit application and supporting documentation that will be required on the above referenced project.

For ease of review, the proposal is organized in the following manner; Our Understanding of the Project, Description of Services, Consulting Fee and Terms and Conditions.

### **OUR UNDERSTANDING OF THE PROJECT**

The project will involve the Borough's contractor removing debris from four locations summarized below.

- 180 South Dennis Drive – Little Ease Run Tributary
- 80-89 East Avenue – Little Ease Run Tributary
- 18 Bernard Street – Still Run Tributary
- 906 Pine Avenue – Still Run Tributary

The project will involve the Borough's contractor removing fallen vegetation to de-snag the stream locations listed above. A nearby street address is shown for each location. The stream near 180 South Dennis Drive will be cleaned via hand-removal of accumulated debris. The remaining stream sections will be cleaned using construction equipment to remove larger debris. We understand that sediment removal is not part of the stream cleaning. In addition, we understand that disturbance to vegetation for construction equipment will be minimized.

A Freshwater Wetlands General Permit 26 and a Flood Hazard Area Act General Permit 1 will be required for the stream cleaning. Per NJDEP rules, an application for the freshwater wetlands general permit will satisfy the requirements for both permits. The Borough will be responsible for the NJDEP Application fees. Based on our coordination with NJDEP to date, all four stream cleaning locations can be included in one permit application. We assume that a Letter of Interpretation will not be required.

Our office will prepare the application for Freshwater Wetlands General Permit 26 which will include the following activities:

- Complete the Application Form for Permit Authorization at the four locations.
- Provide public notice.
- Prepare maps (USGS map and tax maps) depicting the proposed stream cleaning location.
- Obtain and provide color photographs of four (4) stream cleaning locations and access points.
- Prepare a project narrative describing the nature of project, methods to be used, materials removed at the four (4) sites and disposal location.
- Certification of compliance with general permit applicability rules.

### **CONSULTING FEE FOR SERVICES RENDERED**

Based on the understanding of the project and description of service, our total consulting fee to complete the various activities described is **\$3,500.00** plus the cost of applicable reimbursable expenses which will be invoiced separately.

Sickels & Associates is prepared to commence work immediately upon receipt of authorization. This proposal assumes that authorization to proceed will be issued within sixty (60) days from the date of this proposal. The terms and conditions of this proposal shall remain in effect for sixty (60) days.

We have enclosed one (1) signed original and two (2) signed copies of this proposal. If you are in agreement with our Description of Services, Consulting Fee Schedule, Terms and Conditions, please execute one (1) copy as our formal authorization to proceed and return same to this office.
