In fact, MorphoTrak Livescan systems use the same AFIS quality checking algorithms to ensure Gloucester County Prosecutor's Office can submit the highest-quality prints to NJSP and FBI IAFIS/NGI.

MorphoTrak's approach to in-state support is demonstrated by our commitment to provide field resources that are located in close proximity to our customer sites. Customer Responsibilities

Gloucester County Prosecutor's Office is responsible for the following:

- ♦ Providing necessary facility resources required for equipment installation and operation including access, space, environmental control, electrical power and networking.
- ♦ Network communications: To obtain and maintain the required transmission lines and hardware for remote communications to and from the necessary agencies (to/from NJSP).
- ♦ Obtaining all required authorizations and permissions for connecting to New Jersey State Police (NJSP) AFIS. This includes establishing a network connection and user agreement with NJSP

*MorphoTrak
2015 Customer Satisfaction survey, 98% of our customers rated themselves "Satisfied" or "Very Satisfied"*

Assumptions

In developing this proposal, MorphoTrak has made the following assumptions:

- ♦ Should Gloucester County Prosecutor's Office desire or require the ability to interface the proposed MorphoTrak Livescan with an RMS, MorphoTrak will provide Gloucester County

Prosecutor's Office an Interface Control Document (ICD) in which the Gloucester County Prosecutor's Office RMS vendor can use to ensure compliance for the interface. If it is determined that the RMS cannot meet the requirements of the ICD, MorphoTrak can analyze and quote any specific development needs required to establish the interface between the proposed MorphoTrak Livescan and the Gloucester County Prosecutor's Office RMS.

- ◆ An inter-agency agreement between Gloucester County Prosecutor's Office and NJSP will be in place.
- ◆ Gloucester County Prosecutor's Office will provide all necessary communication to connect to NJSP. This includes, but is not limited to hubs, routers, modems, etc.
- ◆ Existing Lexmark Optra R, Optra S, T620, T630, T640 or Xerox Printers are not supported with the new Live Scan System. Please refer to Pricing Table 2 above for supported Printer pricing.
- ◆ On-site Installation Services will be scheduled after network connectivity to NJSP has been established and verified.

Installation is contingent upon Gloucester County Prosecutor's Office establishing a network connection and user agreement with the New Jersey State Police (NJSP). Gloucester County Prosecutor's Office shall be responsible for the purchase and installation of all necessary external communications equipment and electrical wiring of the facilities. Permission from the NJSP is required for access to their AFIS network.

The MugPhoto system interfaces directly with the Live Scan Booking System. Front and side profile mug shots are captured through the Live Scan Software and transmitted to the New Jersey State Police's mug shot database at the same time as the tenprint fingerprint card transmission. These mug shots can then be accessed through an SBI# from a CJIS terminal. The MugPhoto System features software-driven zooming (in/out) as well as an automated facial cropping feature with the option of manual cropping. The MugPhoto System allows for the capture of front and profile mug shots only (no scars/marks/tattoos) which are then transmitted with the electronic tenprint card, stored in a New Jersey State Police mug shot database, and can be retrieved locally via the Gloucester County Prosecutor's Office CJIS terminal. An interface can be set up to store the mug shots locally, but the majority of the work in setting up this type interface will need to be completed by Gloucester County Prosecutor's Office IT staff. MorphoTrak can transmit the ANSI/NIST records to a local Gloucester County Prosecutor's Office-specified e-mail address/server in addition to sending the transmission to the New Jersey State Police. The extraction and storage of the mug shots from the ANSI/NIST records is solely the responsibility of Gloucester County Prosecutor's Office.

Prices are exclusive of any and all state, or local taxes, or other fees or levies. Customer payments are due to MorphoTrak within 20 days after the date of the invoice.
