S&A Proposal No. 2020-14*

Dear Mr. Hunt:

Sickels & Associates, Inc. would like to thank you for the opportunity to offer this proposal for engineering and construction management services in connection with the above referenced project.

It is our understanding that the Borough wishes to proceed with the water main installation, handicap ramp replacement and road resurfacing work for the above roadway. The work will extend from E. Academy Street to E. Clayton Avenue. We understand the work will be funded through a CDBG grant and the Borough staff will complete the water main and handicap ramp installation and the milling and resurfacing of the roadway will be contracted through a County Public Works Department Co-op agreement.

We understand our scope of work will include inspection of the handicap ramp construction, verification of wage rates for the milling and resurfacing contractors and the close out documents for the CDBG Program. We understand the Clayton Public Works Department will complete the inspection of the milling and paving work.

We have prepared the following proposal for the various engineering and inspection services that we anticipate will be required on the above referenced project. Said services are based upon Sickels & Associates, Inc.'s understanding of the project as described above.

For ease of review, the proposal is organized in the following manner; Description of Services, Consulting Fee and Terms and Conditions.

For the purpose of defining the extent of services which may be required for completion of the engineering and construction management, this proposal assumes that all necessary construction will be performed by the Clayton Public Works Department or through the County Public Works Department Co-op program. As such, contract documents and technical specifications required for public bidding purposes are not included within this scope of approval. It is our understanding no construction plans will be proposed for this project.
