Clayton, New Jersey

Dear Ms. Miller:

Environmental Resolutions Inc. (ERI) is pleased to provide this scope of services proposal for additional soil sampling and analysis conducted at the above referenced site. The additional soil sampling was required as part of the ongoing soil remediation for lead at the site. At this juncture, all soil has been excavated.

Task 1: Additional time and expense for post excavation soil sampling

ERI has conducted additional excavation oversight and soil sampling at the Clayton Water Yard to confirm the removal of residual lead impacted soil. Soil samples were submitted for laboratory analysis.

ERI has conducted this task for a fee of

\$1,890.00

Task 2: Bid Specification/Award

ERI will prepare a technical bid specification for the Borough to include in a public bid. The technical specifications will be for the transportation and disposal of soil from the site. ERI will also be available for the bid award for disposal.

ERI will conduct this task for a fee of

\$1,000.00

Task 3: Pre-classification Soil Sampling

ERI will conduct pre-classification soil sampling at the site, in advance of contractors sampling requirements. Note that soil disposal facilities have different analytical requirements and frequency based on volume. This task will include analytical information that will be common for all disposal facilities.

ERI will conduct this task for a fee of

\$1,000.00

Total for this scope and fee proposal

\$3,890.00

No other activities will be included in this proposal. All terms and conditions of ERI's contractual agreement with the Borough of Clayton are in effect.
