Re: Technical Proposal and Estimate of Costs
Hazardous Discharge Site Remediation Fund (HDSRF) Application
Public Entity PA/SI/RI Grant (100%)

Clevenger Brothers Glass Works Inc.
NJDEP SRP PI No. G000038599
305 and 309 E. Linden Street, Block 1203, Lots 14 and 13
Borough of Clayton, Gloucester County, New Jersey

Dear Ms. Newcomb:

Marshall Geoscience, Inc. (MGI) has prepared the following proposal and estimate of costs to provide Licensed Site Remediation Professional Services (Gil Marshall, LSRP 573785) to prepare and submit the NJDEP HDSRF grant application to perform a Site Investigation (SI) of the Clevenger Brothers Glass Works Inc. (Clevenger) site.

In 2015, the Borough of Clayton received a HDSRF grant in the amount of \$6,466.00 to perform a Preliminary Assessment of the Clevenger site. On behalf of the Borough of Clayton, T&M Associates completed the PA of the site and presented its findings and recommendations for additional site investigation activities in its Preliminary Assessment Report dated May 2019. The HDSRF SI grant application will include a detailed technical scope of work and estimated costs to investigate certain areas of concern identified in the 2019 Preliminary Assessment Report. Typically, the NJDEP and NJEDA approve grant applications for the continued investigation and remediation of sites for which previous HDSRF grants have been approved for preliminary investigations.

The cost to prepare the HDSRF SI Grant Application is **\$3,800.00**.

The HDSRF grant application will include the costs to prepare the application, technical scope of work and estimated costs, so the Borough of Clayton will ultimately be fully-reimbursed for the costs presented in this proposal when the HDSRF grant is approved.
